Who We Are

At Contendre Solar, We're not just in the business of solar panels—we're pioneering a sustainable energy revolution that's reshaping the world.

Mission

Our mission is to create, "A greener planet through innovative solar solutions"

Vision

We envision a world where clean energy is accessible to everyone, reducing carbon footprints and fostering sustainable growth globally.

Our Story

Contendre Solar was founded with a simple yet profound belief that the future of energy lies in the power of the sun. Since our inception, we have relentlessly pursued this vision, combining cutting-edge technology with a deep commitment to environmental stewardship. Our journey has been marked by innovation at every turn, as we continually push the boundaries of what's possible in solar energy. We've grown from a promising startup to a recognized leader in the solar industry, known for our high-quality products and customer-centric approach.

Our dedication to excellence has earned us the trust of clients across the globe, and we remain focused on delivering solutions that not only meet today's energy challenges but also pave the way for a cleaner, more sustainable tomorrow.

Meet Our Team

"Powered by Passion, Driven by Expertise."

Our team is a blend of seasoned professionals and passionate innovators, committed to leading the solar revolution with expertise and vision.

PARESH SHETH
Chairman

With over 4 decades of experience, Paresh Sheth is a visionary leader driving Contendre Solar's growth. His commercial intellect, farsighted approach, and commitment to sustainability have propelled the company forward, while his philanthropic efforts focus on education and healthcare in rural communities.

YASH SHETH
Director

Yash Sheth, a graduate in engineering from the University of Florida, oversees Contendre's business strategy, manufacturing operations, and expansion projects. His dynamic leadership and expertise in sustainable energy play a key role in the company's innovation and growth.

DHARMIN SHETH
Director

Dharmin Sheth, an architect with expertise in construction and project development, leads Contendre's marketing and project divisions. His work has been essential in expanding the company's EPC capabilities and driving growth.

Together, we embody the core values of Contendre Solar—integrity, innovation, and a relentless pursuit of excellence. Our leadership team, with their diverse expertise and visionary approach, is dedicated to advancing the solar industry and achieving groundbreaking results. Each member brings a unique perspective, combining decades of experience with cutting-edge knowledge to drive our mission forward.

Our team's innovative spirit is exemplified by our collaboration with PDEU, where we've established the world's first industrial-level solar panel manufacturing unit within a university campus.

India's most premium Integrated Solar PV Manufacturing & Solutions Company

Key Achievements

Contendre has emerged as a leader in the photovoltaic (PV) technology industry, with a significant global footprint, recognized for quality and innovation.

2019
Incorporation of Contendre Solar
Contendre Greenenergy Pvt. Ltd. was incorporated and Contendre Solar- A Solar PV Module Brand was launched into the market with the setting up of an ISO-certified ultramodern, state-of-the-art production facility producing the best-in-class solar PV modules as the core product for the company.

2020
Launch of EPC Vertical
Launch of Contendre Solar EPC Business Vertical. Received Module Technology Innovation of the Year Award for being the only company in India to be certified with and being able to supply 415Wp Solar PV Modules in trusted 72 full Cells technology by Solar Quarter.

2021
ALMM Enlistment
Amplification of Module Business with the addition of multiple distributors across India along with the addition of a Solar PV Inverter and battery trading arm. Contendre Solar PV Modules successfully listed in the ALMM List issued by MNRE.

2022
Global Expansion
Contendre Solar expanded its reach across 20 states and 4 Union Territories, launched international operations with participation in a U.S. expo, and established itself as an Integrated Solutions Company. The EPC vertical introduced OPEX model services, and the company was recognized as the Rising Star MSME for Solar PV Module Manufacturing by EQ.

2023
Product Range Upgrade
In 2023, we enhanced our product portfolio with upgraded solar PV modules and solutions, incorporating advanced technology to meet evolving market demands and improve overall performance and efficiency.

2024
Gandhinagar Plant & Collaboration with PDEU
This year marks the addition of our Gandhinagar Plant, further expanding our manufacturing capabilities. This was done through first of its kind partnership with PDEU establishing the world's first industrial-level solar panel manufacturing unit inside a university campus, pioneering innovation and academia-industry collaboration.

2025
Expansion to 1.2 GW Capacity
As part of our growth strategy, we are scaling up production to a capacity of 1.2 GW, strengthening our position as a key player in the solar industry and enhancing our ability to meet increasing demand.

Product Range

Mono PERC Cut Cell Module Range
400W-685W

- Precision Engineering for optimized energy capture.
- Enhanced Output with high energy density, ideal for limited spaces.
- Thermal Efficiency for stable performance in diverse climates.
- Dual-Side Energy Capture with bifacial technology.
- Smart Investment with durable, low-cost operation.

5BB Crystalline Module Range
40W-415W

- High Efficiency: Optimized 5 busbar design for better performance.
- Durable: Built to last in various weather conditions.
- Trusted Technology: A reliable solution that has withstood the test of time.
- Replacement-Friendly: Ideal for projects needing the same technology.
- Versatile: Available in Mono and Poly Crystalline technologies.

N-Type Top Con Solar Module Range
415W-650W

- High Efficiency: Advanced Top-Con cells with superior energy output.
- Lower Degradation: Sustains high performance over time.
- Durable Design: Built for harsh conditions with a sleek, optimized structure.
- Eco-Friendly: Low carbon footprint and future-ready technology.
- Efficient Design: Maximized energy output with sleek design.

Customized BIPV Product Range
Customised as per Design Requirement

- Architectural Integration for seamless building design.
- Energy-Generating Surfaces replace traditional materials.
- Customizable to project-specific dimensions and aesthetics.
- Eco-Friendly with reduced carbon footprint.
- Next-Gen Sustainability for urban renewable solutions.

What We Do Best

At Contendre Solar, we deliver a range of solar energy solutions, providing excellence from manufacturing to full project execution.

OEM for Solar PV Modules

Custom-manufactured, high-quality solar PV modules designed for efficiency and reliability.

Turnkey EPC Solutions

End-to-end project management from design to commissioning, ensuring seamless execution.

Solar Kits

Complete, easy-to-install kits for residential and commercial applications.

Operations & Maintenance Services

Comprehensive services to ensure optimal performance and longevity of solar systems.

Why Choose Contendre

Choosing Contendre Solar means choosing a partner deeply committed to your success and long-term sustainability goals. We don't just provide solar solutions; we work closely with you to understand your unique needs and customize our offerings to ensure the highest efficiency and reliability. With a focus on innovation, quality, and customer satisfaction, we are with you every step of the way, ensuring that your investment in solar energy delivers maximum value for years to come.

Here's why industry leaders trust us with their solar projects:

Proven Track Record: With over 5MW+ of installations completed and more than 100MW of modules already supplied, Contendre is trusted by industry leaders across the globe.

Quality & Reliability: Our products are built to last, with rigorous testing and industry certifications ensuring the highest standards of quality and safety.

Innovative Technology: We lead the industry in innovation, continually enhancing our products to ensure peak performance and reliability.

Customer-Centric Approach: We focus on delivering customized solutions, supported by exceptional customer service and after-sales support.

Sustainability Commitment: Our dedication to reducing environmental impact goes beyond our products—we engage in community development and sustainable practices at every level.

Young Energetic Team: Our team of dynamic and forward-thinking professionals is committed to driving innovation and delivering exceptional value to our clients.

Commitment to a Greener Tomorrow

Beyond Solar—Building a Sustainable Future

Environmental Impact

Our solar solutions have drastically cut CO2 emissions, providing efficient, low-maintenance solar plants that offer reliable energy for future generations. We proudly support global efforts to combat climate change by reducing reliance on fossil fuels through clean, renewable energy.

Community Engagement

We create job opportunities and implement solar projects in underserved areas, contributing to community development and education. From powering remote schools and hospitals to offering training in the renewable energy sector, Contendre Solar is committed to making a positive impact.
